

PHATTHARACHRIN KHAMSIHA

Phattharacharin.k@ku.th | phone: 0616041471

PROFESSIONAL SUMMARY

Computer Science student with hands-on experience in React, JavaScript, Tailwind CSS, and RESTful APIs. Seeking a Junior Frontend Developer Internship to translate designs into clean, responsive web applications and integrate seamless backend APIs.

EDUCATION

Bachelor of Science (Computer Science)

(Expected) Mar 2027

Kasetsart University Kamphaeng Saen Campus, Nakhon Pathom, Thailand

- GPA: 3.48/4.00

- Academic Excellence Scholarship: Ranked 2nd (Academic Year 2023) and 3rd (Academic Year 2024) in Department

Related Coursework: Software Construction, Data Structures and Algorithms, System Analysis and Design, Fundamentals of Database Systems, Computer Networks and Cloud Computing Principles

QUALIFICATIONS

Image Processing with MATLAB, MATLAB Fundamentals — MathWorks

Mar 2025

AI for Thai Skills and Applications Workshop — Kasetsart University

Feb 2025

SKILLS

Technical Skills

- Programming Languages: JavaScript, Python, HTML5, CSS3, SQL
- Frontend Frameworks & Tools: React, Tailwind CSS
- Backend & Databases: Supabase, PostgreSQL, Node.js
- Developer Tools & Cloud: Git, GitHub, Vercel
- Design & Creative Tools: Figma, Blender (3D Modeling & Asset Creation)

Soft Skills

- Team Collaboration
- Problem-Solving
- Technical Communication

PROJECTS

Dental Clinic Web App (Computer Science Project)

June 2026 - Present

- Frontend & State Management: Translated Figma prototypes into dynamic React & Tailwind CSS interfaces across 4 core user roles, streamlining clinic workflows.
- Real-Time Data Sync: Integrated Supabase APIs to build real-time scheduling UI components, preventing double-booking between online reservations and walk-in queues.
- Auth & Form Validation: Implemented client-side RBAC access control, multi-step form validations, and EmailJS OTP UI flows for password resets.

Lumina Project (Project Management and Digital Startup)

Feb - Mar 2026

- Mobile-First Web App: Co-developed Lumina, a responsive LINE LIFF web application using React, Supabase, and Vercel.
- Client-Side API Integration: Integrated MediaPipe and ResNet50 APIs to construct interactive, real-time camera scanning UI overlays and automated skin diagnostic displays.
- Interactive UI/UX: Designed camera-guided interface components in Figma and implemented dynamic visual feedback to optimize user onboarding on mobile browsers.

Crossword Game Project (Computer Architecture)

Sep - Oct 2024

- UI Architecture & OOP: Built a Java (JDK 17) desktop app using Layered Architecture to decouple UI components from core logic.
- Real-Time UI Updates: Processed 2D matrix datasets to drive instant string-matching UI renders and dynamic hint calculations.
- Event-Driven UI: Applied event-driven state handling and background timers to maintain a smooth, non-blocking UI.

ADDITIONAL EXPERIENCE

KU Diary — Content Creator & Team Member

Feb 2026 – Present

- Co-manage weekly digital publication schedules with cross-functional media teams.

Kunlun Summer Camp — Participant

May 2024, May 2025

- Practiced core C programming concepts and dynamic logic building by completing intensive, hands-on coding challenges across two consecutive summer sessions.

KU-ICE Camp — Participant

Nov 2024

- Engaged in international cross-cultural workshops and collaborative team challenges, strengthening adaptability, cross-cultural communication, and teamwork skills.
